Date Funded (first funding):	N/A	City:	Lexington
Date Repaid ¹ :	N/A	State:	South Carolina

¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

Increase lending or reduce lending less than otherwise would have occurred.

Loans decreased by approximately \$14.3 million from year end 2009 to year end 2010. We originated \$44.7 million in new loans during 2010. The decrease was a result of significant paydowns and a lack of loan demand in the markets we serve. We continue our efforts to grow the loan portfolio.

To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).

The loans originated primarily consisted of loans secured by owner occupied non-residential properties.

First Community Corporation

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

This capital acquired through the CPP provided the company with an additional regulatory capital cushion in the event of further asset deterioration in our loan and investment portfolios.

First Community Corporation

Please describe any other actions that you were able to undertake with the capital infusion of CPP/CDCI funds.

To date these funds have been utilized as we had anticipated and more importantly as intended by the CPP program.
